## IPA - Instrument for Pre-Accession

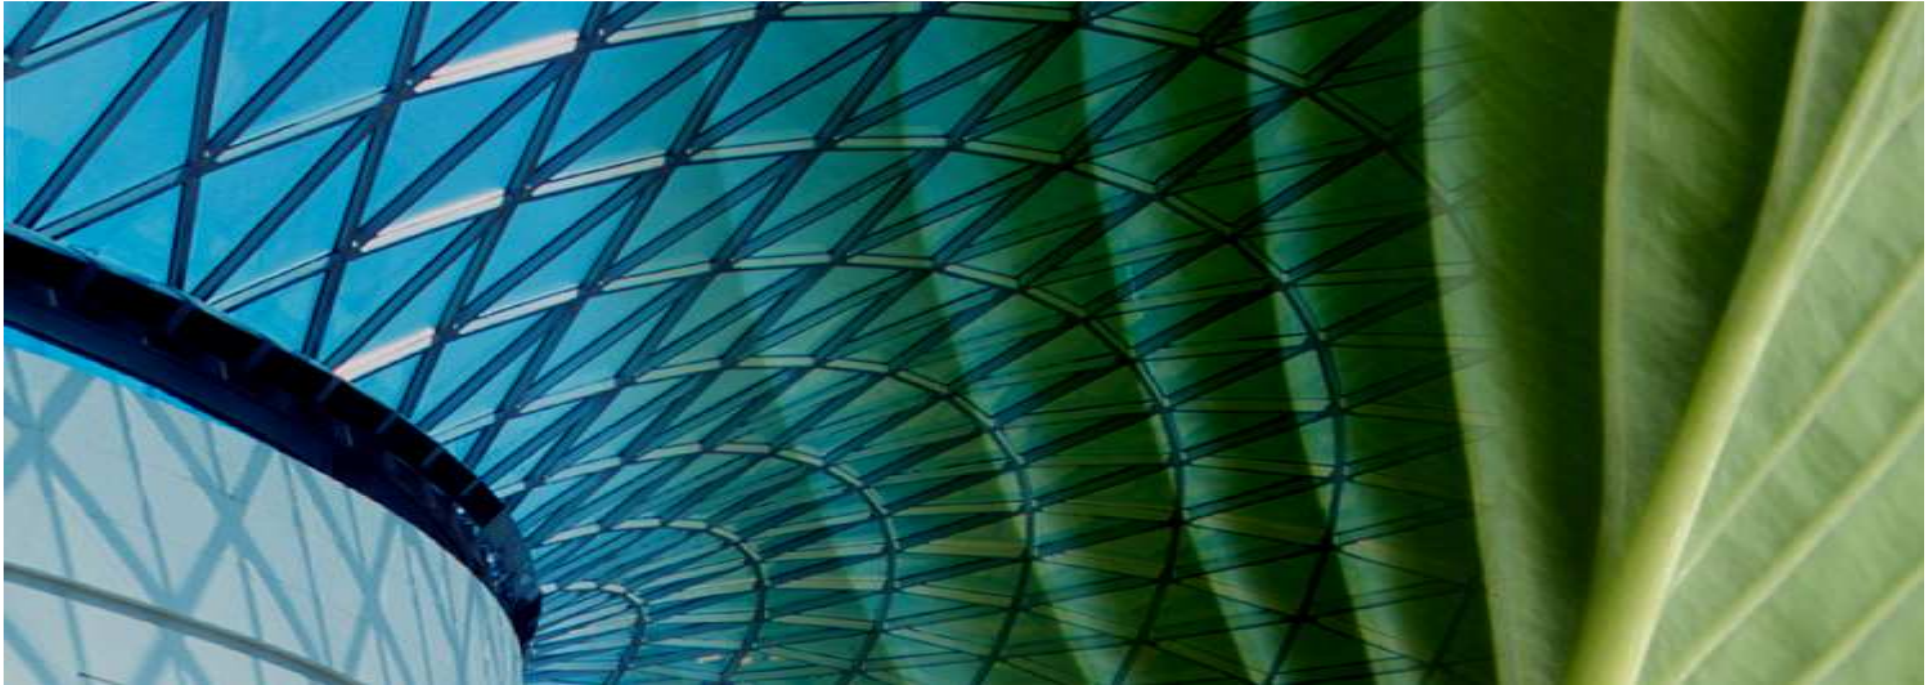

# What are we talking about? Instrument for Pre-Accession

## **IPA aims to support candidate countries**

- In policy development in the cohesion policy areas and transitional and institutional building
- In preparing countries to effectively implement and manage the Community's Cohesion Policy (Structural funds)
- Prepare the candidate countries for the programming, implementation and management of EU Cohesion Policies

## Good to know about IPA

- Intensive central monitoring and evaluation by EU (delegation)
- EC delegation approves all tender documents
- Central Procurement and payments (PRAG)
- Appropriate visibility to ensure activities funded by the EU
- The total pre-accession funding for the period 2007-2013 is € 11.5 billion
- The annual enlargement package is accompanied by the IPA Multi-annual Indicative Financial Framework (MIFF)

**RS-Belgrade: IPA — sustainable development in energy sector**  
2010/S 155-238548

Location: Europe (non-EU) — Serbia (RS)

Service procurement notice

Common procurement vocabulary (CPV):

Main object:

90700000 Environmental services

1. **Publication reference:**  
EuropeAid/129767/C/SER/RS.

2. **Procedure:**  
Restricted.

3. **Programme:**  
IPA.

4. **Financing:**  
Budget line.

5. **Contracting authority:**  
European Union, represented by the European Commission, on behalf of and for the account of the beneficiary countries.

6. **Nature of contract:**  
Fee-based.

7. **Contract description:**  
This technical assistance project will provide support to the Serbian Ministry of Mining and Energy by:  
(i):  
— preparation of Kyoto Protocol mid-term implementation plan in the energy sector,  
— description and the modality of joint implementation (JI) and emission trading scheme (ETS) mechanisms,  
— analysis of the existing legal and strategic documents for the preparation for Serbia's potential status change to Annex-I country and draft of adequate amendments or new legislation,  
— analyses of the modern technologies which in the most efficient techno-economic way reduce GHG emissions,  
— awareness raising through public campaigns and workshops on sustainable development related to the climate and energy;  
(ii):  
— preparation of the action plan for the implementation of the EU legislation regarding petrol and diesel quality and sulphur content in certain liquid fuels,  
— proposal of adequate monitoring system for the fuel quality control, which would encompass monitoring methods, modalities of inspection control financing, organisation of inspection services and authorisation of laboratories for the fuel's quality control,  
— preparation of biofuels labelling-certification system.

The consultant should have the provable knowledge in following fields of expertise:
