

Energy Union

Energy for Europe – serving society, supporting the economy, protecting the environment

« *I want to reform and reorganise
Europe's energy policy
in a new European Energy Union.* »

Jean-Claude Juncker

The Energy Union

Where we want to go:

Secure, sustainable, competitive, affordable energy for every European

What this means:

Energy security, solidarity and trust
A fully integrated internal EU-wide energy market
Energy efficiency as an energy source in its own right
Transition to a low-carbon society
Research, innovation and competitiveness

How we want to reach it:

1 Energy Security, solidarity and trust

We have to **diversify** energy supply

This means an increased variety of sources, suppliers and routes; increasing transparency on gas supply; working together on security of supply and developing a stronger European role in global energy markets.

2 A fully-integrated internal energy market

**Energy should flow freely across
the EU – without any technical
or regulatory barriers**

This means connecting markets through interconnections and implementing and upgrading the internal market's software while enhancing regional cooperation and empowering consumers.

3 Energy efficiency

Rethink energy efficiency as an energy source in its own right

This means increasing energy efficiency, in particular in the building sector, and promoting an energy-efficient and decarbonized transport sector as well as efficient products.

4 Decarbonisation of the Economy

An ambitious climate policy is an integral part of our Energy Union

The next challenge will be to enforce the 2030 energy and climate framework, while becoming the number one in renewables.

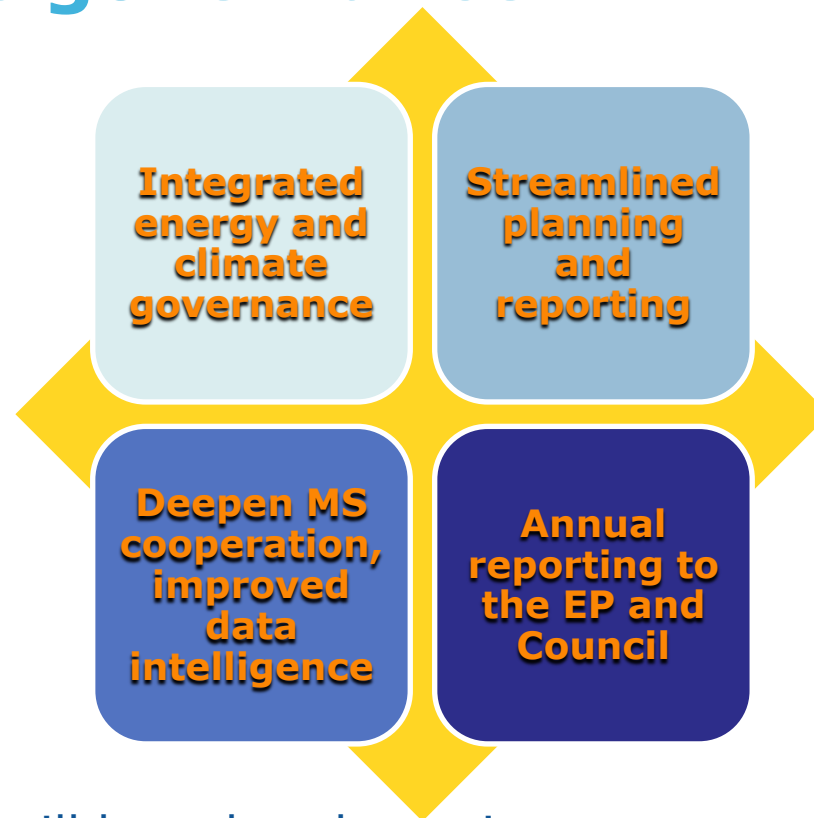

5 Research, innovation And competitiveness

Developing EU **technological leadership** in low carbon technologies

This will reduce energy consumption, empower consumers, create huge industrial opportunities and boost growth and jobs.

Delivering the Energy Union: A dynamic governance

The Commission will launch a dynamic governance process for the European Energy Union
